DAVID RICHESON BURNS TO DEATH AT RANGLES STATION

ITALY ADVISES WAIVING GERMAN WAR INDEMNITY

Premiers' Council During the Absence of Millerand, of France, Acts Hastily to Lighten Burden of the Germans—New Perils Face the World in Far Removed Places

PARIS, March 3.—Despite France's strong resistance, the supreme council (council of premiers) has apparently decided to strengthen Germany economically without considering the grave political possibilities, said a London dispatch from Pertinax to the Echo de Paris. Pertinax is the political editor of the Echo de Paris and one of the best informed writers in international politics in Europe.

LONDON, Mar. 3.—Premier Nitti, of Italy, is said to have advocated to the council of premiers the waiving of Germany's war indemnity, the times stated today. The Times indicated that the reported attitude of the Italian premier may have a place in the manifesto on the European economic conditions, which the council of premiers is preparing for publication.

The council of premiers has taken action on two big questions while Premier Millerand was unavoidably absent.

First—Closer relations with Soviet Russia.

Second—Economic assistance to Germany.

Both are startling departures in the way of revision of the original terms of the treaty of peace, and they have for their aim the admission of Russia and Germany into world affairs once more. The return of Premier Millerand from Paris is anxiously awaited as France has been vigorously opposing such action as the council evidently contemplates.

The Daily Telegraph, in commenting upon the new trend of events, concludes that France will continue to oppose any scheme for the lightening of Germany's burden. The newspaper professes to see in the proposed permission for Germany to raise an international loan "the possibility of Germany resuming her economic and political penetration."

In commenting upon the allies' Russian plans the Daily Telegraph declares that "Japan is now confronted with domestic radical movement unprecedented in the country's history."

Japan may be forced to oppose the wide open door policy for fear of consequences at home.

Anxiety prevails in certain circles over the Turkish settlement in view of the conflicting views of the allies.

WILLIAM OVERHOLT DIES TUESDAY AT CUYAHOGA FALLS

After suffering for nine days with uraemic poisoning during the last three of which his life hung by a thread, William Overholt, aged 50, died at his home in Cuyahoga Falls Tuesday afternoon at 3 o'clock. Everything that medical aid could do was fruitless, and he rallied once, it was for only a brief period.

William Overholt was born on a farm near Keene and lived there until 25 years of age. He grew up in the Keene schools and the Presbyterian church at that place, of which he was a member. He was married 22 years ago to Miss Laura Shrigley, of Roscoe, and for ten years the home was made on south Third-st., Coshocton. Twelve years ago they moved to Cuyahoga Falls to make their home, and during their residence there Mr. Overholt had built up one of the substantial businesses of the city, conducting a grocery and real estate agency. In that community as in this Mr. Overholt was known to scores of speaking acquaintances because of his jovial good nature and kindly disposition, while his nearer friends recognized in him a magnanimous character of Christian impulses.

He was a member of the Knights of Pythias lodge here, and retained his membership here after moving away. His wife and two brothers, Reo and Orlando, both of Coshocton, survive. A son died in infancy.

The body will be brought to Coshocton Thursday, arriving here on the noon wheeling, from which it will be removed to the home of Reo A. Overholt, 935 Walnut-st. where funeral services will be conducted Friday morning at 10 o'clock in charge of the Rev. Joseph A. Speer, pastor of the First Presbyterian church of Coshocton. Interment will be made in South Lawn cemetery.

Short funeral services were to be held today at the late home in Cuyahoga Falls.

The case was certified to juvenile court from Mayor Amore's court at Plainfield.

Wally Flyer Broke Down Near Rangles

The Walhonding valley flyer was one hour late leaving Coshocton Tuesday afternoon.

The delay was caused by a break in the supporter arches of the tender on the trip down the valley Tuesday morning. The accident occurred at Rangles station and the train arrived a half hour late.

The shops at Cambridge were notified and a work train was sent to make the necessary repairs, which were completed in time to allow the train to leave at 4 o'clock on the return trip to Mansfield.

MOTION FILED IN SPRAGUE DIVORCE CASE HERE TUES.

A motion has been filed by the plaintiff in probate court in the case of Lucy M. Sprague vs. Russell Sprague, asking the court to strike out of the defendant's answer all the allegations contained in paragraph three, charging that the plaintiff fraudulently induced him to marry her by representing she was pregnant.

The plaintiff in an affidavit in support of her motion says the defendant in attempting to avoid the payment of alimony is seeking to take advantage of his own unlawful and immoral conduct prior to their marriage and to permit him to avail himself of this defense would be rewarding him for committing the crime of seduction. She says the defense is offered purely for the purpose of disgracing her and prejudicing her cause. C. Homer Durand is her attorney.

DEATH CLAIMS J. J. LENHART WAR VETERAN

Jacob J. Lenhart, 33, Civil war veteran, died at his home, 1004 Walnut-st. Tuesday night at 11 o'clock, from the infirmities of old age. He had been in ill health for five weeks and had been bedfast since last Sunday.

He was born October 9, 1836 on a farm near Shanesville and later moved to a farm at Chili where he grew to manhood. He clerked in stores at New Bedford and Chili and taught in the Chili schools a few years. When he was about 21 years old he taught school two years in Indiana and Illinois, after which he returned to Chili and clerked in a store there. February 18, 1865 he enlisted in the G. E. Richards company, 191st regiment Ohio infantry at Newark, Ohio. He served seven months in the Union army. He was prevented from enlisting at the beginning of the war owing to an accident in which his leg was fractured. He was discharged from the service August 27, 1865 at Winchester, Va. He returned to Chili and in 1872 formed a partnership with his brothers and they conducted a general store there. One of his brothers died and the other took up the study of medicine, leaving him to conduct the store alone. He united with the M. E. church in 1897 and was a faithful member until his death. In the same year he was married to Miss Emma Winklepleck. To this union three sons were born, Edwin S. Lenhart, Fifteenth-st., Coshocton, Clarence E. Lenhart, Cincinnati, and Vinton R. Lenhart, Pennsylvania. He came to Coshocton in 1897 and worked at various trades here being in the grocery business most of the time. During the past few years he had lived a retired life. He was one of Coshocton's most highly respected citizens.

Besides his widow and three sons, he leaves three sisters, Mrs. C. J. Bowen, Columbus, Mrs. Phoebe Scarr, near Chili, and Mrs. Wm. Madison, near Keene, and one brother, Dr. J. P. Lenhart, Wauson, Ohio.

BODY CREMATED IN BED WEDNESDAY WHEN SHACK ALONG CANAL BURNS; RILEY RICHESON HAS A CLOSE CALL

First Warning Sleeping Men Had of Danger Was Collapse of Roof, Which Buried Younger, and Aroused Older of the Two—Sickness of Riley, the Uncle, Indirect Cause of Tragedy

David Richeson, 55, was burned to death in bed about 4:00 o'clock Wednesday morning when the shack in which he and his uncle, Riley Richeson, resided along the canal a quarter of a mile west of Rangles Station four miles northwest of Coshocton, was destroyed by fire.

Riley Richeson had been sick Tuesday night and his nephew had been doctoring him. About 4:00 o'clock Riley was awakened by the smoke, the entire shack being in flames. It is that the roof caught fire from the chimney and the entire roof collapsed. Riley escaped with a few burns about the head after making a vain effort to rescue Dave, whose body was practically burned up. The charred bones were found on the bed Wednesday morning. The shack was heated by a coal stove.

Riley and Dave Richeson had been living in the shack since last August and worked by the day on farms in that vicinity. Besides his uncle, Dave is survived by his mother, Mrs. Nancy Richeson, and one sister, Mrs. Glenn Darr, both of Warsaw. He had lived in the Warsaw vicinity all his life.

After making his escape from the burning shack, Riley Richeson spread the news among the neighbors and Urey Bros., Warsaw, undertakers, were notified. The body of Dave Richeson was removed to Warsaw Wednesday. Funeral services will probably be conducted Thursday and burial will be made at Valley View cemetery.

Coroner Edmund Cone and Sheriff Earl Cullison motored to the scene of the fire Wednesday morning to investigate the circumstances surrounding the death of David Richeson.

CENTRIST PARTY AT MUNSTER IS FOR MONARCHY

PLUMB SEEKS THE DEFEAT OF THOSE WHO OPPOSED HIM

YOUNGSTOWN, O., Mar. 3. — Glenn E. Plumb, sponsor of the "Plumb plan" for the operation of the railroads, opened a nationwide campaign here last night to defeat for reelection every member of congress who voted for his plan on the railroad bill.

By passage of the bill the Cummins bill passed by congress and laid by the president's signature, will have defeated the plan Plumb and his supporters have been working for. The constitution and the people have given the Plumb plan a 51 percent vote in the stockholders' first list of American property, said Plumb.

Plumb declared that the further rate increases sought by the railroads would not decrease deficits but on the contrary would increase them.

"Within a year we will see a freight increase to cover an operating deficit. This is one way of making the railroads self-sustaining. Another way is to decide wages. There is nothing in the Cummins-Esch bill to benefit labor or the public."

Mr. Plumb declared the Plumb plan "is a vision wrought of humanity. The bill is not my work and I would be bold to claim credit for its formation."

WAR WEAPONS ARE TURNED OVER TO DRY LAW POLICE

WASHINGTON, Mar. 2. — Dry law agents are being prepared for war. Huge quantities of guns and ammunition, a part of the surplus war equipment, were ordered today to be given immediately to prohibition agents for "eventualities."

Commissioner Roper, dry law enforcement chief, directed that all arms, ammunition, ammunition belts, scabbards and holsters now held by Internal Revenue collectors be turned over to supervising prohibition agents for distribution to the thousands of men constituting the federal whiskey detective force.

Officials denied that the heavy arming of agents indicated that wholesale raids were scheduled. They did not deny, however, that agents are preparing for activity in some sections where illicit distilling is reported on a wholesale scale. Trouble has been brewing for some time between enforcement agents and moonshiners in mountain districts. Officials admitted that the stage is being set for a round up of such violators.

REAL ACTRESS IN PERSON

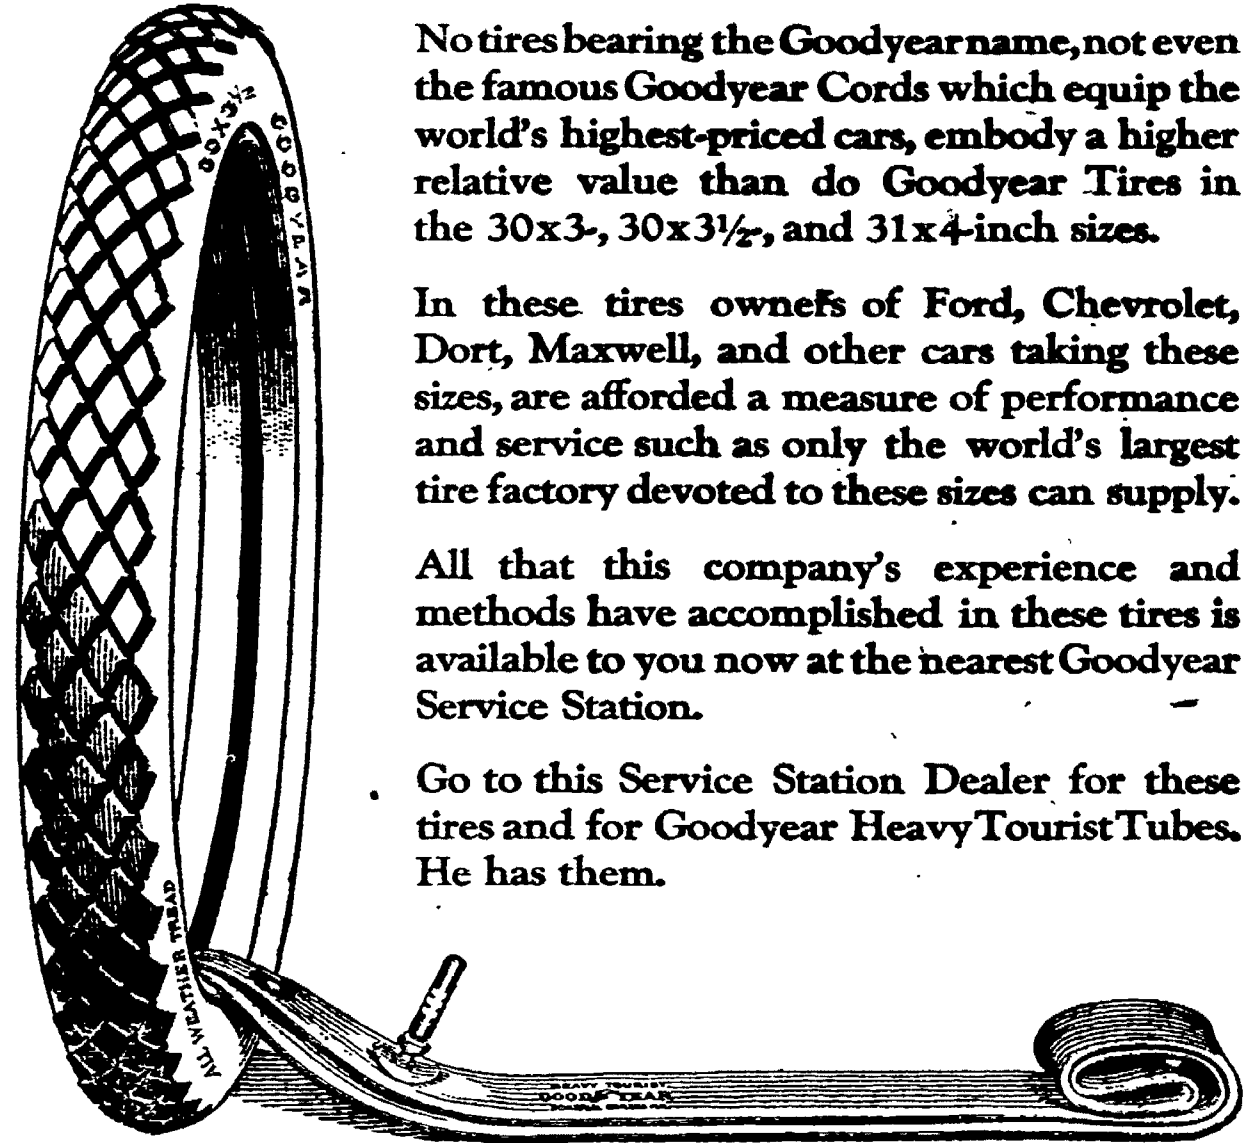

The idea of seeing real actresses on the stage in connection with a picture presentation is new to Coshocton audiences, but Manager Chacos desiring to give his patrons what the larger cities see, has at considerable expense, engaged Princess Overy and her Movie Girls to stage a prologue in connection with the sensational and startling film "The Price Woman Pays" at the Pastime tonight and Thursday.

Princess Overy is a noted dancer, and brings not only her fascinating and attractive dances, but with the assistance of her company of selected beauties, stages a series of tableaux representing the vices and virtues of womanhood, as a fitting prelude to the picture story which concerns the pitfalls of a girl of the school age and older.

To better emphasize the story, which is a modern bit of "Faust," with the temptation by Mephisto of the aged philosopher with the promise of youth and beauty in exchange for his soul. The same temptations beset young women today, and this picture shows them the results. Beatriz Micheienna and Lois Wilson, famed screen stars, are featured in the picture which comes in six parts.

Income-Tax Facts You Should Know

The income-tax law allows a person, in figuring his 1919 net income, to take credit for contributions made during that year to organizations conducting charitable, scientific, educational, and religious work; to societies for the prevention of cruelty to children or animals; also to the special fund authorized by the vocational rehabilitation act.

Before claiming any deduction under this provision of the law a taxpayer should carefully consider what is allowable. There should be no guesswork or estimates or setting down a lump sum but the taxpayer should show only the contributions as he made them and as he can substantiate them. Care should be taken that amounts given to individuals are not included and that the education is confined strictly to donations during the year to organizations operated without benefit to the persons behind the movement. For instance, a gift made to a hospital which may bring profit to the persons interested in the institution would not be a deductible item.

All donations to churches are deductible, including those for missionary funds, church building funds, church dues.

POLITICAL CONTRIBUTIONS
The taxpayer should be careful to omit any claim for contributions to funds gathered for propaganda and political purposes. The allowable deductions are definitely limited by law to organizations operated exclusively for charitable, scientific, educational, or religious purposes, for vocational rehabilitation, and for the prevention of cruelty to children and animals.

After listing his contributions of an allowable nature, the taxpayer should see that he does not claim an amount over the limit established by law, which is 15 per cent of the year's net income, computed without the benefit of this deduction.

Contributions may be made in cash or other property; if other than cash, the value of the property must be accurately determined. Subscriptions or promises to contribute should not be considered, the allowance providing only for contributions actually made.

Members of a partnership may deduct their proportionate share of the partnership's contributions to such or-

ganizations. But a partner is limited to 15 per cent of his net income on his total contribution deduction.

PERSHING FINDS THE SENTIMENT FOR TRAINING

WASHINGTON, March 2.—There is a great deal of sentiment throughout the country for universal training. General John J. Pershing said today after completing a three months' trip that took him to every part of the country. "Wherever I went I found that the people felt that the boys of the country ought to be trained in some way, so that they would be ready if we ever went to war again," said General Pershing. "The people seem to realize the immense benefit the boys derived from their army training, not only from a physical standpoint, but also from the standpoint of self reliance and adaptability."

German Miners Don't Like Overtime Work

BERLIN, March 3.—Government officials were alarmed today over the situation in the coal fields, where the miners are on strike against overtime work. The government fears that the strike will lessen the coal deliveries to France which were promised under the treaty. France recently sent a warning to Berlin that a blockade would be established unless the promised coal deliveries were made as pledged.

GOT HIS SAVINGS

DAYTON, O., Mar. 2. — Representing themselves as revenue men looking for stills, three armed men early this morning forced their way into the home of John Navratil, near Dayton, and under threats of death, forced him to turn over \$2,500 which he says he had drawn from a bank to apply on a farm purchase. Police and county officials hope for an early arrest.

PEPTO-MANGAN BUILDS RED BLOOD

The Happy Family is the One Where Everybody Has Red-blooded Health.

Children should not be pale and wan. Women should not be tired, weak and blue. Young girls should not be nervous, listless and anemic. Men should not feel run-down and poorly.

Poor health and lack of vitality are often merely the result of impoverished blood.

Gude's Pepto-Mangan is for people whose bodies suffer from lack of proper blood nourishment. Pepto-Mangan enriches the blood and increases the number of healthy red blood cells, which are so necessary to carry the proper nourishment, vigor, strength and strength to every part of the body.

It contains the very properties that are so sorely needed to build up thin, watery blood. Physicians call it the Red Blood Builder.

For your convenience Pepto-Mangan is prepared in two forms, liquid and tablet. Both contain exactly the same medicinal value.

Insist on the genuine Pepto-Mangan. To be sure you are buying the genuine Pepto-Mangan, ask your druggist for "Gude's". And be sure the name "Gude's" is on the package.—Adv.

Why Suffer So?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Coshocton people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

E. Schaeffer, blacksmith, 216 S. Second St., Coshocton, says: "I think continually bending over at my work is what brought on my kidney trouble. Nights I was restless and had to get up to pass the kidney secretions, which were unnatural. Mornings, I could hardly get out of bed on account of my back. After suffering this way nine months and trying many remedies without benefit, I used Doan's Kidney Pills. After taking the first box, I felt like a different man. I could then work all right and sleep soundly."

Mr. Schaeffer gave the above statement in September, 1914, and on January 17, 1917 Mr. Schaeffer said: "The cure which I received from Doan's Kidney Pills has been lasting. I gladly confirm every word of my former endorsement."

TRAINED NURSE SAYS

Every Family Needs Hull's Superlative Compound for Colds, LaGrippe or Influenza.

Dayton, Ohio, The A. J. Hull Medicine Co., Flaxbury, O., Gentlemen: For the benefit of thousands of people who are suffering with LaGrippe or Influenza, I feel it my duty to tell others about your wonderful remedy, Hull's Superlative Compound, so that they may get quick help in time of need. It was through this remedy I became interested in medicine and nursing and 17 years ago entered the City Hospital at Indianapolis, Ind., from which I graduated and became a registered nurse of Indiana. I continued nursing until I became a wife and mother of two children. I believe Hull's Superlative Compound to be the most efficient all-around family medicine on the market, as it never failed in my family and many others to whom I have recommended it, to break up Colds, LaGrippe, Tonsillitis, Influenza, Bilious fever and Acute Indigestion, and I found it also to be a splendid blood builder. Every family in the country now, especially needs Hull's Superlative, for by having this remedy in the home and beginning to take it upon the first symptom of chills it will ward off the severest part of the disease. I received the best results by taking 1-2 teaspoonful every two hours for about 3 doses, following with from 1/2 to 1 spoonful of castor oil or epsom salts, then continue the medicine by taking 5 to 10 drops three times a day. The patient goes into a heavy perspiration and should be kept under cover, not allowing draft to reach them, although plenty of fresh air should be in the room. I must say I never thought I would relish the idea of having my name used for advertising but I feel it my duty in this crisis of the dreadful disease of Influenza, which is proving so fatal to so many, to recommend it to others for their help, and wish I could tell thousands of mothers of the merits of this wonderful medicine.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one of two every night for a week and note the effect, 10c and 25c.

DO WE REALLY WANT PEACE?
OUT of all the welter of wrangling and dispute into which the nations of the world have plunged there is at least one proposition on which all are agreed, or on which all profess to agree, and that is none of them want any more war.

Even before the war began every one of the nations that later was to some other nation's throat vigorously protested that it had no desire for war and that if all other nations were peaceably inclined as that particular nation was there could be no war.

Yet the war came and for years after, even until the war was ended by the armistice of November, 1918, they were all busy engaged in proving by their blue books and their white books that they were each innocent as lambs of beginning the awful cataclysm. Yet the war came on and they all fought unto death, to the verge of the destruction of the civilization they had all helped build thru the low and painful process of the centuries.

And now that it is over they still all protest that there is nothing they so much desire as peace; that no matter how belligerent other nations may be, any particular power that may be picked out vigorously insists that it wants to see no more war on earth forever. On this point they are all agreed.

Has it never occurred to any one of them to put all the rest to a real test of sincerity. Is there not on among all the recently warring powers that is smart enough to pass the buck to all the others and say: We are all telling so much about our hatred of war and that there is nothing we all desire so much as the reign of universal peace, let's all get together and end it right now. We will make no more implements of war if you will make no more. We will not stop with any scheme of gradual disarmament, but we will go the whole length at once! Right now we are willing to cut out the whole infernal business. We are willing to pledge ourselves by formally enacted statute never to build another "Big Bertha," no more deadenachts, no more machine guns and shrapnel. Will the rest of you go with us?

There could be no dodging a proposition like that. It would at once be a supreme test of sincerity. The nation that held out would automatically confess that all its high-sounding protestations about wanting no more war were nothing but pure bunk.

Dr. Frank Crane hits the high spots along this line of argument when he says that the "first step toward removing the curse of war is some sort of realization of humanity as a whole; it is the awakening to this that instigated the League of Nations.

The next step, and the all-important one, is dictated by common sense. It is to cease making implements of war.

We have laws in most civilized states forbidding the carrying of deadly weapons. To that we owe the comparative safety of life in Chicago, London, and Paris.

Let nations quit making cannon, battleships, and other war machines and an equally good result will be brot about in the world.

It is true that you cannot change human nature nor eradicate the desire to fight; but it is just as true that murderous brawls and assassinations are reduced to a minimum where there is a law prohibiting concealed weapons.

A writer in a recent magazine asks why all nations should not agree on a complete disarmament, involving the destruction of all rifles, guns, machine-guns, and all other weapons used in warfare and the slaughter of human beings. All the nations that lay claim to civilization should further agree to pass a law absolutely forbidding within their territory the manufacture of all weapons used in warfare. The possession of a rifle or gun for hunting purposes should be allowed only by special permit and upon the payment of a special license fee, and only to persons having such a permit should the sale of a limited number of cartridges be permitted.

The number of those who profit by the making of rifles, guns, ammunition and other war armaments is small. The factories used for that murderous trade can easily be turned to better uses. The big warships can be better employed in peaceful trade, especially since the tonnage of the mercantile marine has been so greatly reduced that it will take years to round it out. As there will be no more profit from war materials, there will be none for who have an interest in war and have promoted it for the sake of the money they could make out of it. Profiteering thru war and war contracts has become a great financial game and where money is God all other considerations are lost sight of.

Then, why not use the opportunity now, when peace must come soon, to declare for a general and complete disarmament and agree on the passing of a law to be enacted in every country denouncing the destruction of all the armament for war and forbidding its manufacture hereafter?

New York Day-By-Day
By O. O. McINTYRE

NEW YORK, March 3—
I was riding in the subway
And reading a newspaper,
For which I paid two cents,
And I'd been eating batter cakes,
And felt stuffy

And while I was reading,
A little fellow next to me,
Was also trying to read,
From the paper I bought,
And it was all right.

ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment.

Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends, and gives permanent relief. This medicine combines, with excellent alteratives and tonics, what is generally conceded to be the most effective agent in the treatment of this disease.

If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

But I was full of batter cakes,
And when I'm that way
I become almost a field
And back back to my wife,
And everything
And the more this guy read,
The madder I got,
And I'd jerk the paper up,
And I'd jerk the paper down,
And I'd jerk the paper down,
And then cross ways,
But he didn't mind
He was getting the news free,
And finally I folded it up,
And stuck it deep
In my overcoat pocket,
And glared at the fellow
But he didn't care
And so I looked away
And after a little while,
I looked at him again,
And the little rascal
Had peeked my pocket,
And was reading my paper,
And I saw an article
That I had overlooked,
About an actress,
Suing a multi-millionaire,
And I peeked over the top
And the little guy saw me
And I folded up the paper,
So I couldn't see it,
And I tried to read some more,
And he got up and moved,
To a seat across the aisle,
And everybody was laughing,
And I got up and got out
At the wrong station
And ran into an old man,
Who whisked me over the beam,
With his umbrella,
And I fell going up steps,
And bit my tongue,
And I'm off batter cakes,
From now on I'll eat
Nothing but cookies

WALT MASON
AUTHORS' ART

A lot of authors kill our laughs, and have all gentle readers, by finishing their paragraphs with foolish strings of adjectives. It's spotted a lot of looks for me, this silly affectation, and when a "dear" page I see I'm filled with indignation. They say that Walter's books are great, they have his "Secret City," but me they don't like. Inspiring this punk ditty. His sentences all disappear in his running and mangle if that some baby gets near, to Walpole I would have said. Over hooks I never get confused, however apt to be confused in them. I speak him as I find, when words are cheap and blarney is common. I do not think the author is trying to make a contest with who has to use a dotted line to help out an impression. The structure of his writing is like a hen's neck and shivers; no author need resort to tricks, who can the goods deliver.

PEOPLE'S FORUM

HAS LIVED HERE 84 YEARS

Editor The Tribune:

Joseph Love was born in Pennsylvania, March 1, 1836. I was born in Coshocton, March 1, 1836. While Mr. Love is a recent resident of Coshocton, I have lived here 84 years. The only problem to solve between Mr. Love and myself is to determine who is the older. I presume that I am the oldest native born citizen now living, and my recollection of Coshocton in 1849 is just as distinct as the yesterday. I clearly recall the old foot bridge to Caldersburg, the building of the old wooden bridges, the exciting campaign of 1849, the speaking of Gen Harrison in front of the old court house, to an immense crowd, all when the post office and principal business of the town was on water street.

I can see the old men of that day just as distinctly as if they were before me today. Abram Sells, Ludwigton, Madden, Adams, Mathews, Spangler and others. I was a member of the First M. E. Sabbath School organized in the old court house. I have the old original minutes, also the original papers, and complete list of subscribers to the First M. E. Church, not one living today.

The old town seems just as plain to me today as it did in 1849, the little old brick school house located on the south west corner of the public square, where I first went to school, and the old Presbyterian church that stood about the center of the south side of the square. I might tell a lot more.

Financial Letter

NEW YORK, Mar 1. — Foreign developments during the past week, while throwing light upon the direction of American diplomatic policy, have not furnished any new evidence with regard to the economic or perhaps even the practical political phases of the situation. President Wilson's effort to drag on the principal continental powers into his own point of view on Adriatic policy may be temporarily successful, but the prevailing opinion in financial circles seems to be that it will bring its own retribution in the form of less satisfactory relationships regarding more immediate and more directly interesting matters. Meanwhile the peace treaty obstructed jointly as it has been by the attitude of the Administration in refusing amendments or reservations and by the hostility of a group of "progressive" Republican Senators antagonizing the League of Nations, has not advanced to a more favorable position. Its prospects, so far as they can be definitely understood, are slightly more satisfactory from the legislative standpoint, but the ups and downs of the document have been so numerous of late that public opinion has assumed a chronically pessimistic tone with respect to the whole subject.

Quick Action on the Railroads

Acting with unexpected speed on the railroad measure, first the House and then the Senate ratified the report of the Conference Committee without introducing any material changes, thus sending the measure to the President late on the evening of February 23. The action thus taken was of the utmost interest to the stock market for two kinds of reasons, those directly connected with the future of railroad shares and those growing out of the general policy indicated by the action of Congress. As for the railroad shares themselves they immediately scored material advances, as was to be expected. It was natural that the bill, carrying, as it did, provision for helping out the so-called "weak roads" from the earnings to be made by the stronger lines should have been regarded as more favorable to the low-priced rails than to those of higher investment value. This view was reflected in market transactions, altho it was pretty generally admitted that the time was as yet too early to allow positive conclusions to be reached as to the effect of so complex and thoro-going a measure of regulation. From the more general standpoint the action of Congress was regarded as having important economic and political bearings because it showed a disposition on the part of the legislative body to defy the dictates of trades

An Important Letter

CONNEAUT, OHIO:—"I have the greatest faith in Dr. Pierce's remedies because they have always given me just the relief I needed in a short time and that relief was not temporary, but permanent. My first experience with these medicines was twenty years ago when I was suffering with inward trouble and doctoring gave me little or no help. Then my doctor ordered me to take local treatments which were decidedly objectionable to me. It was then that I wrote to Doctor Pierce's Invalids' Hotel for advice and took the medicines advised, which included the 'Favorite Prescription,' and it was only a short while before I was feeling better and eventually I was cured of my trouble for I never had a recurrence of woman's weakness. I have taken 'Favorite Prescription' since, whenever I have felt the need of a special tonic, and also the 'Pleasant Pellets' when in need of a laxative, and not once have I been disappointed in the results obtained. I certainly do recommend Dr. Pierce's medicines very highly because they are so dependable and satisfactory."—MRS. PHEBE FARLIN, 404 Washington St.

Dr. Pierce's Favorite Prescription can now be had in tablet form as well as liquid at most drug stores. Send to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for a ten cent trial package of tablets.

have so often been reported to be considerably behind the times, besides, failing to discriminate between goods actually sold and those consigned. Be this as it may, the fact that so great a volume of exports had in fact been in process of shipment accounts for the sharp decline in sterling which carried that currency to a low figure of \$3.18 early in the month. The developments of the past week have, however, shown a strong resisting power in sterling; and its fluctuations, tho they would ordinarily be considered wide, have not been so when compared with the situation during the past few weeks. Demand for sterling has held quite consistently at a point near \$3.40, while both francs and lire have moved closely in sympathy with it and have shown only moderate fluctuations. The checking of the export trade is undoubtedly in progress, and as this proceeds the reflex upon exchange ought to be a decisive one.

Industrial Prospects

The publication of unfavorable earnings by some leading steel and other industrial returns has shown how taxation and excessive costs can eat into the legitimate returns to be expected from a large business. The prospects indicate more and more conclusively that while the country is at bottom industrially sound, with little if any accumulation of good, great productive power, and general underlying stability, there are certain factors whose correction will be essential before investment conditions can be regarded as settling down to a permanent footing. In spite of all these industrial factors, however, while the tendency of industrial stocks at least seems to be downward.

For the Little Ones

To Keep Their Digestion Perfect Nothing Is So Safe and Pleasant as Stuart's Dyspepsia Tablets

An experienced observer in charge of a large office said it was a waste of words to tell most people to eat plain food. They prefer the food that delights the eye. Checking up on the after effects the usual distresses of gasiness, sour risings, water brash, loginess and so on may be avoided by following the meal with one or two Stuart's Dyspepsia Tablets. These supply the stomach with an alkaline effect thus promoting normal conditions as in health. This puts the O. K. on so-called rich food. Men and women are but children of a larger growth when it comes to eating the foods that satisfy, even though they may cause indigestion.

Indigestion is not necessarily confined to those who live high. It may follow so simple a process as the flavor of a bay leaf, thyme, garlic, sage

The Rousers club will hold its regular monthly meeting Thursday evening at the club rooms. A picnic supper will be served at 5.30. If you are a Rouser, or if you'd like to join a good wide awake club, be at the club rooms at 5:30 tomorrow night.

The board of directors held its regular monthly meeting Monday evening. The meeting which proved to be an unusually interesting one was full of lively reports from the various committee chairmen. A report was given of the mid-winter conference which was held at Columbus February 21 and 22 by the delegate from the local association.

The board discussed plans for the national convention which will be held at Cleveland in April. A committee has been appointed to organize a class which will conduct a course of study on the questions that will be considered at the national convention. Coshocton will have 11 voting delegates at the convention and quite a few other members of the local association are planning to be present. All those who are interested in the convention, or who expect to attend it, are cordially invited to become members of this class.

Are the rooms popular and are they really being used by the girls of the city? Listen to the report the general secretary gave at the meeting of the board of directors Monday evening. During the last 15 days of February 214 girls used the kitchens and 1,143 people visited the rooms.

RAILROAD MEN WILL ACCEPT A PROPOSAL FOR WAGE TRIBUNAL

WASHINGTON, Mar. 3. — Representatives of thirteen railway unions today agreed to accept under protest President Wilson's offer to appoint a bipartisan tribunal which will try to work out a wage peace program between the roads and their employees.

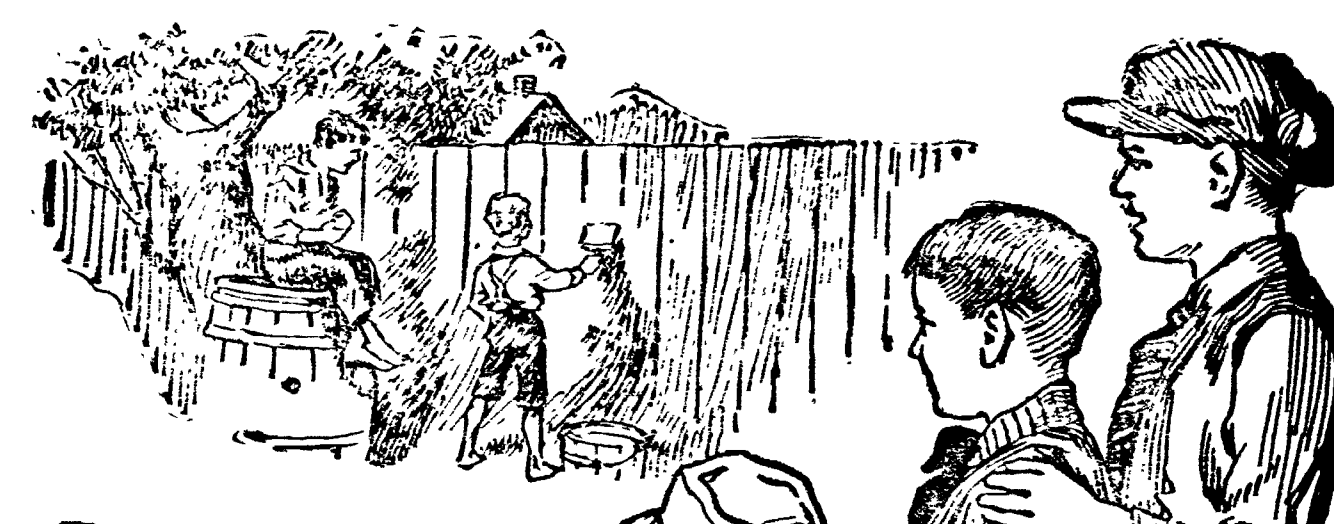

All of the shop craft unions agreed to the proposition with the exception of the Brotherhood of Maintenance of Way employees, who number about 100,000. They took no action on the matter either way and it is considered probable that a strike of these employees is forthcoming. A strike order already is in existence, having been scheduled to go into effect on February 17, but having been held over at the request of the president.

President Wilson will notify the carriers and the employees by letter today that he is ready to appoint the tribunal. Such a letter was prepared at the white house for the president's signature.

PRINCESS OWRY COMING HERE

The Pastime management, always on the lookout for genuine novelties for the theatre's patrons, will offer "The Price Woman Pays," an artistic prologue in connection with a film presentation, the first of its kind ever presented in Coshocton. The big city theatres such as the Rialto, Rivola, New York; Sheas, Buffalo; Circle, Indianapolis, and several on the Pacific Coast, make an artistic prologue the preliminary feature to each week's program, and the idea is brought to Coshocton by Manager Chacos tonight and Thursday. Princess Owry and her Movie Girls, in a series of artistic poses augmenting the film presentation of "The Price Woman Pays" will present a series of artistic poses and dances, typifying Passion, Temptation, Innocence, Flirtation and other sensations.

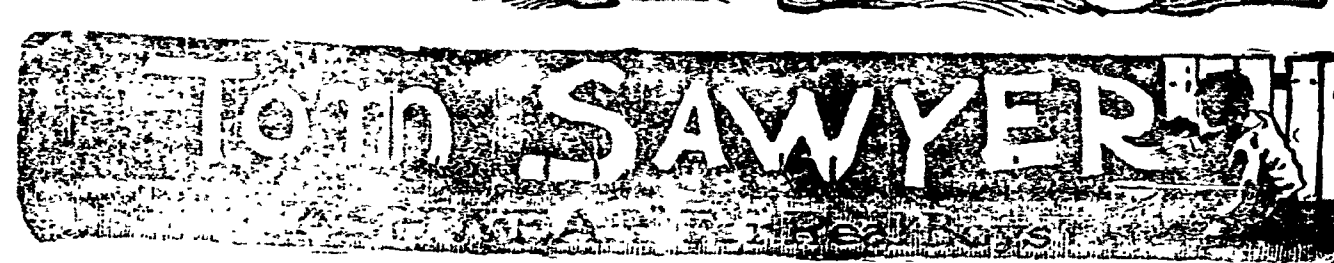

The introduction of these Irving models and dancers in a highly artistic presentation assists in getting the mind of the spectator into the proper appreciation of the picture story, which introduces a portion of the story of Faust and Marguerite. The film story however, is strictly modern in treatment. Beatrice Michelena and Lois Wilson are the featured players in the film story which tells of the temptation of girlhood of the high school age. Flirtations that start innocently lead where? This is a film for mothers and daughters, and fathers and young fellows, too. The film has had a wonderful vogue, but with the addition of the artistic prologue which is in ten scenes, the combination resolves itself into a genuine novelty for the movie theatre patrons.

PRESIDENT REA ASKS CO-OPERATION OF RAIL WORKERS

Pennsylvania Passenger Agent I. D. Webner has received an official communication from President Samuel Rea, Philadelphia, Pa., stating that of effective with the return of the railroads to their owners for operation on March 1, the lines of the Pennsylvania system have been divided into four operating regions to facilitate and encourage closer and freer contact at all times with the employees and the public.

President Rea further says "All efforts must be devoted to meeting the demands of the country but, as a result of war conditions, and the crisis thru which the nation has passed, the property is returned to its own management with its roadbed and equipment below its usual standard. Further, our facilities have not kept pace with the growth of the industry, and until additional cars, locomotives, tracks and terminals can be provided, we must utilize the present facilities to the fullest possible extent. For some time, and for these reasons, the service rendered cannot fully meet requirements. However, it is hoped that every one who requires transportation of the Pennsylvania railroad system, either freight or passenger, will see constant improvement.

Our future success depends upon our ability to command and retain the confidence and co-operation of the public, which we can have only if we fully meet all our obligations, and conscientiously perform our every duty.

"For a long time many of us (both employees and others) have felt that our real problems were not appreciated and were not understood by the public; but now we believe the American people are thoroly alive to the necessity for understanding these problems and deciding upon a policy under which they can be settled on a just basis.

"In our organization, the longing for a return to the Pennsylvania standard of work and service is apparent on every side. If each of us—the 275,000 men and women who comprise the personnel of the Pennsylvania Railroad System—will respond to this spirit and work together as we have in the past, we shall succeed in satisfying the public and earning a fair return for the many hundreds of thousands of our citizens, and their institutions, who furnished the money to create and improve this great public transportation system, and who have entrusted its operation to us."

COAL MINERS ARE TALKING STRIKE MIDDLE OF APRIL

WASHINGTON, Mar. 3. — Decision of the bituminous coal commission in the wage controversy between the operators and miners, which came to a climax last winter in the general strike on November 1, may be submitted to President Wilson on March 10, it was learned here today. The commission is engaged in formulating its decision, and altho difficulties have arisen between the members they entertain the hope of being able to arrive at an unanimous conclusion.

Chairman Henry M. Robinson engaged in a conference last night with Secretary Tumulty at which the work of the commission is understood to have been discussed. It is not believed that Mr. Robinson favors a larger wage advance than the 14 per cent. Commissioners R. Peale and John P. White, have both voiced the opinion that a material wage increase should be given—in Mr. Peale's case, about 25 percent and in Mr. White's case about 40 per cent.

A general strike of all miners in the bituminous and anthracite fields on April 14, in the event that a satisfactory wage advance, proportioned on the sixty per cent demand of the bituminous miners, with a six hour day and a five day week, is not granted, has been discussed by the officials of the United Mine Workers. It was asserted here today.

The anthracite miners will meet in New York on March 1, with delegates of the operators to discuss a new wage scale. Their demands are approximately the same as have been made by the bituminous miners.

Soft coal producers are in Washington discussing the situation.

At Last, Relief from Rheumatism

Spring seems to aggravate this painful disease

Victims of Rheumatism, that most painful and torturing of all diseases, feel that with the approach of balmy springtime they may expect some relief from the pangs of suffering which they have endured all winter.

And this is an excellent time to get rational results from the right sort of treatment for this painful ailment. Just now the system is ready to throw off the impurities that have been accumulating throughout the winter season, and nature is ready to help in the eliminating process that is so essential in preparing the system for the changing seasons.

Many forms of Rheumatism come from a tiny disease germ that infects the blood and multiply by the million, spreading pain and torture in their wake.

Those who have not yet realized the truth of this statement, and expect to get rid of the disease by the use of liniments and lotions and other locally applied treatment, will continue to suffer from Rheumatism, and will find their condition growing steadily worse all the time.

Rheumatism is more than a mere local disorder confined to the locality of the painful parts. It cannot be rubbed away, because it is a deep-seated disease that has its source in the blood supply. The tiny pain demons, the millions of little disease germs that cause the disease must be reached and eliminated from the blood before real relief can be had.

S. S. S. has been successfully used for Rheumatism for more than fifty years. It is the most thorough and reliable blood remedy because it searches out and eliminates all disease germs which infest the blood.

Mr. E. P. Bratches of Dallas, Texas, says in a recent letter: "I was down for several weeks with rheumatism in my knees, could not work. I commenced S. S. S. and before I used two bottles I could get around fairly well. I continued using S. S. S. until I used twelve bottles and I am now entirely well. I am a carpenter and now can do my work all O. K. I feel as young as I did at thirty although I am fifty. I highly recommend S. S. S. for Rheumatism of the joints."

S. S. S. has done wonderful things in the treatment of Rheumatism, particularly that form of the disease which comes from the tiny germ that gets into the blood, multiplies rapidly, and carries the torturing pain throughout the system.

S. S. S. is sold by druggists everywhere. It is a fifty year old remedy, and its use is no experiment, as it has been on the market for over half a century, and is known throughout the length and breadth of the land.

Now is an excellent time to treat your Rheumatism with S. S. S., while the system is undergoing its annual spring cleaning, and throwing off impurities.

Go to your drugstore and get a bottle of S. S. S. today, and begin to take a rational, sensible treatment for Rheumatism that will show results. For free expert medical advice regarding your own case, write fully to Chief Medical Adviser, 178 Swift Laboratory, Atlanta, Ga.

NEGRO TESTIFIES VICTIM IS HAPPY

CANTON, O., Mar. 3.—George Spellwhite, negro, on trial in connection with the killing of Doc Monroe Street, at Waynesburg, last December, told the jury in Judge Harvey E. Ake's court room today, that he had received three visits from the spirit of Street, which said that he was happy in the spirit world than on earth.

"The first time Street's spirit came to me was in the Wayneburg jail," Spellwhite testified, "just the night he died in a Canton hospital. I didn't know he was dead until he came up to me and told me he was in the cell. He was calm and was not fazed a bit. The first time he did not say anything and went away like he came."

Spellwhite said that the spirit appeared to him in the county jail at which time he said that "he wasn't sorry that he was dead. The third appearance," Spellwhite said "was last night. He came into my cell easy and soft like and said he thought the trial would come out all right and he hoped I would get free."

The third appearance," Spellwhite said "was last night. He came into my cell easy and soft like and said he thought the trial would come out all right and he hoped I would get free."

JERSEY GOVERNOR SIGNS LIQUOR BILL

TRINTON, N. J., Mar. 3.—Gov. L. Edwards at noon today signed the bill legalizing the manufacture, sale and transportation of alcoholic beverages containing 3.5 percent alcohol after the formal declaration of peace had been declared.

ANARCHISTS AT MILAN ORGANIZE SOVIET; ROUTED

LONDON, March 3.—Anarchists at Milan attacked and captured many industrial establishments and then proclaimed a Soviet, according to a Central News dispatch from Rome today. Later the anarchists were driven out. Subsequently they attacked the headquarters of the union workmen but were repulsed.

Riots In Rome

LONDON, March 3.—Disturbances broke out in Central Rome when a mob attacked the police after a mass meeting in behalf of war cripples, said an Exchange Telegraph dispatch from Rome today.

Many persons were wounded and two were killed during clashes between crowds and the police at Milan. Fighting broke out during a meeting of demobilized Italian soldiers.

A Central News dispatch from Milan said that Signor Malatesta, one of the anarchist leaders, addressed the anarchist element and that this precipitated some of the disorders.

NEW POLICY MAY RESULT FROM THE COURT DECISION

WASHINGTON, Mar. 3.—A new governmental policy with regard to "big business" may be formed as a result of the supreme court decision that the United States Steel Corporation is not a trust within the meaning of the Sherman law, it was said today, at the department of justice.

Attorney General Palmer was studying the decision today almost to the exclusion of all other business. No hint was given as to along what lines this proposed new policy might go.

TOOK POISON AND WANDERED FORTH TO FUTURE LIFE

CLEVELAND, O., March 3.—Despondency over ill health caused Helen Hudec, 20, to take poison at her home late last night and then wander away to die. Her unconscious body was found early this morning in a pile of snow near her home. Attaches at the St. John's Hospital entertained little hope for her recovery.

Getting Better

William Brown, who lives on west Main-st and who underwent an operation at the City hospital Monday is rapidly improving.

BACK SO PAINFUL COULDN'T STAND TO WEAR HER CORSET

Sandusky lady had to be helped up and down in bed because her back was so weak and full of pain.

HEADACHES DAILY
Felt tired and draggy every morning, but Dreco has overcome all this and she now attends to her duties.

"I had such terrible headaches that I couldn't bear to wear a corset for the pressure was more than I could bear, even though I felt the need of the support it gave me," said Mrs. Jennie Mai Walker, of 126 E. Water St., Sandusky, O.

"My kidneys were in bad shape and I frequently had to get up several times during the night. My stomach was deranged for indigestion troubled me daily. My bowels were bound up and I had headaches every day, especially in the morning, when I'd get up feeling tired out and had those dragging pains. I had a spell and they had to help me up and down in bed on account of the pains in my back. I lost weight and got so weak I could not attend to my housekeeping."

"A friend told my husband to get some Dreco for me, which he did and I began taking liberal doses, which got my bowels moving and cleaned a lot of stuff out of me. My kidneys got better so that I did not have to get up during the night, and all the pain in my back disappeared. My food digested better, with no gas or pains in my stomach. I began to gain my weight back; my appetite increased. I slept sound every night and on waking I'd feel fresh, with no headaches. I take long walks now and don't grow tired; am keeping my house again, and even washed and ironed last week. Dreco has been a blessing to me, and I gladly praise it."

All good druggists sell Dreco and it is highly recommended in this city by Page & Lorenz.

House Passes The Appropriation Bill

WASHINGTON, March 3.—The senate having agreed to abandon its amendments to the deficiency bill appropriating \$1,000,000 for a Canadian and Mexican border patrol and \$3,000,000 for navy shipyards and repairs to navy ships, the house today finally passed the bill.

The house agreed to an item of \$21.

Jump from Bed in Morning and Drink Hot Water
Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in you, face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges or whose skin is sallow or pallid, that one week of inside bathing will have them looking and feeling better every way.

PRUSSIAN WRANGLE OVER DISPOSITION OF EX-KAISER'S ESTATE

BERLIN, March 3.—At a joint meeting of the Prussian political parties today it was proposed to put the question of the final disposition of the ex-kaiser's estates up to the German national assembly to avert a "Prussian political crisis." Prussian Minister of Finance Suedkum had drawn up a plan providing for compensation for the Hohenzollern family for the loss of the Prussian throne and the perquisites it entailed, but strong opposition from the Socialist party, developed. Vorwaerts, organ of the Socialist party, complained that the bill would give the Hohenzollern family more than 1,000,000,000 marks and threatened Herr Suedkum with dismissal from the government by the Socialist party if he pressed the passage of the measure in the Prussian diet.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Weyth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application on two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Weyth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application on two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people
